### Proposals and Reference Information

#### Proposal No. 1 Appropriation of Surplus

The Company proposes the appropriation of surplus as follows:

1. Year-end dividends

The Company regards the appropriate return of profit to its shareholders as one of its most important management issues in operating its business. The Company's target for the consolidated dividend payout ratio is 50% or more. While making proactive return of profits to shareholders based on business performance, the basic policy is to pay attention to maintaining stable dividends.

As a result of careful consideration based on this basic policy, the Company proposes to pay a year-end dividend for the current fiscal year of ¥65 per share as an ordinary dividend.

(1) Type of dividend property

To be paid in cash.

(2) Allotment of dividend property and their aggregate amount

The Company proposes to pay a dividend of ¥65 per common share of the Company.

In this event, the total dividends will be ¥1,627,050,685.

Accordingly, including the interim dividend of ¥50 per share already paid, the annual dividend for the current fiscal year will total ¥115 per share.

(3) Effective date of dividends of surplus

The effective date of dividends will be June 25, 2021.

2. Other appropriation of surplus

(1) Item of surplus to be decreased and amount of decrease

Retained earnings brought forward: ¥3,000,000,000

(2) Item of surplus to be increased and amount of increase

General reserve: ¥3,000,000,000

- Notes:
- Masami Kawashita and Yoshitsugu Asai are candidates for Outside Director and the Company has submitted notification to the Tokyo Stock Exchange and the Nagoya Stock Exchange that they have been designated as independent officers.
  - Pursuant to the provisions of Article 427, paragraph (1) of the Companies Act, the Company has entered into agreements with Masami Kawashita and Yoshitsugu Asai to limit their liability for damages under Article 423, paragraph (1) of the Companies Act. If the reappointment of Masami Kawashita and Yoshitsugu Asai is approved, the Company intends to renew the aforementioned agreement with each of them.  
An overview of the content of the agreement is as follows.
    - If the Outside Director is found to be liable to the Company for compensation for damages due to failure to perform duties as an Outside Director, liability shall be limited to the amount provided by laws and regulations.
    - The above limitation of liability is only recognized when the Outside Director acts in good faith and without gross negligence concerning the duties causing such liability.
  - The Company has entered into a directors and officers liability insurance policy as provided for in Article 430-3, paragraph (1) of the Companies Act with an insurance company. The scope of the insured in this policy includes all Directors and Corporate Auditors of the Company, and insurance premiums are not borne by the insured.  
An overview of the content of the policy is as follows.
    - Litigation expenses and compensation for damage borne by the insured due to company litigation, third-party litigation and shareholder derivative suits are covered.
    - As a measure to prevent impairment of the appropriateness of the execution of duties by the insured, losses caused by the insured through illegal acts, etc. are not covered.  
If each candidate is elected and assumes the office as a Director, the Company plans to include them as an insured in this policy.
  - The number of the Company's shares owned includes those acquired through the Stock Ownership schemes.

**Proposal No. 3** Election of One Substitute Corporate Auditor

The Company proposes the election of one Substitute Corporate Auditor to be ready to fill a vacant position should the number of Corporate Auditors fall below the number required by laws and regulations.

The appointment of the Substitute Corporate Auditor is conditional upon the number of Corporate Auditors falling below the number required by laws and regulations, and his term of office shall be until the expiration date of the retiring Corporate Auditor’s term of office. Furthermore, the nomination shall remain in effect until the commencement of the next Annual General Shareholders’ Meeting.

The consent of the Board of Corporate Auditors has been obtained for this proposal.

The candidate for Substitute Corporate Auditor is as follows:

## **Business Report**

(From April 1, 2020 to March 31, 2021)

### 1. Business Progress and Achievement of the Company's Group ("the Group")

#### (1) Business Activities and Results

In the FY2021 (April 2020 - March 2021), global economic uncertainty increased due to the world-wide spread of the novel coronavirus (COVID-19), and increasing concerns about the US-China trade friction as well as the Hong Kong matter and so forth. However, the global semiconductor market showed firm demand of devices used for data centers and PCs fueled by "Stay Home" to prevent the spread of novel coronavirus (COVID-19). Additionally, the semiconductor inventory levels have increased due to concerns over the spread of the novel coronavirus (COVID-19) and the intensified US-China trade friction.

The consolidated results for this period are shown below.

Consolidated Results for Fiscal Year 2021:	Millions of JPY unless otherwise stated		
	FY2020 ended March 31, 2020	FY2021 ended March 31, 2021	Change YoY
Net Sales	38,408	41,956	9.2%
Operating Profit	6,007	7,639	27.2%
Ordinary Profit	6,177	7,709	24.8%
Profit Attributable to Owners of Parent	4,270	5,607	31.3%

### **Segment Operating Results by Region**

#### (i) Japan

Net sales in Japan increased by 13.2% to JPY 24,781 million compared with the previous fiscal year. The increase was mainly due to firm demand for products related to semiconductor devices and silicon wafers. Operating profit increased by 35.5% to JPY 7,362 million. The increase was mainly due to sales increase and a favorable product mix.

#### (ii) North America

Net sales in North America decreased by 1.9% to JPY 5,628 million compared with the previous fiscal year. Operating profit increased by 47.8% to JPY 416 million. The increase was mainly due to a favorable product mix.

#### (iii) Asia

Net sales in Asia increased by 8.6% to JPY 10,044 million compared with the previous fiscal year.

Operating profit increased by 4.9% to JPY 2,050 million. The increases were mainly due to firm demand for CMP products related to the advanced logic devices.

(iv) Europe

Net sales in Europe decreased by 1.3% to JPY 1,502 million compared with the previous fiscal year. Operating income decreased by 19.7% to JPY 159 million. The decrease in operating income was mainly due to foreign currency fluctuations.

### **Segment Operating Results by Application**

(i) Silicon Wafers

Regarding products for silicon wafers, net sales of lapping abrasive products increased by 20.0% to JPY 4,604 million compared with the previous fiscal year and net sales of polishing slurry products increased by 6.8% to JPY 9,621 million. The increases in net sales of both product lines were mainly due to high production levels in the semiconductor industry.

(ii) Semiconductor Devices

Regarding products for the CMP process of semiconductor devices, net sales increased by 15.4% to JPY 20,037 million compared with the previous fiscal year. The increase in net sales was mainly due to continuous firm demand from logic devices, although a pause was seen in memory devices.

(iii) Hard Disks

Regarding products for hard disks, net sales decreased by 21.2% to JPY 1,705 million compared with the previous fiscal year. The decrease in net sales was mainly due to market shrinkage caused by replacement with Solid State Drives (SSDs) and customers' manufacturing process changes.

(iv) General Industries

Regarding products for general industries, net sales increased by 5.8% to JPY 3,779 million compared with the previous fiscal year. The increase in net sales was mainly due to recovery of demand of products for automobiles and industrial machineries.

(2) Status of Capital Investments

The Group invested JPY 1,574 million during this consolidated fiscal year.

(3) Status of Financing

The Group expended mostly its own funds for investment capital during this consolidated fiscal year.

(4) Status of Consolidated Assets and Operating Results

Millions of JPY unless otherwise stated

Notes;

1. For the net income per share calculation, the average number of the common share over the current business year is calculated after deducting treasury share that includes a Board Benefit Trust (BBT) and an Employee Stock Ownership Plan (J-ESOP). (346,311 shares and 310,715 shares for the previous business year and the current business year respectively)
2. For the net assets per share calculation, the total number of issued shares at the end of the current business year is calculated after deducting treasury shares that include a BBT and J-ESOP. (311,200 shares and 310,500 shares for the previous business year end and the current business year end respectively)

#### (5) Status of Important Subsidiaries

Company Name	Capital	Equity Ownership	Main Business
FUJIMI CORPORATION	USD 330 thousand	100.0%	Manufacture and sales of lapping abrasive and polishing compounds
FUJIMI-MICRO TECHNOLOGY SDN. BHD.	MYR 5 million	100.0%	Manufacture and sales of lapping abrasive and polishing compounds
FUJIMI EUROPE GmbH	EUR 25 thousand	100.0%	Sales of abrasive and polishing compounds
FUJIMI TAIWAN LIMITED	NTD 800 million	100.0%	Manufacture and sales of lapping abrasive and polishing compounds
FUJIMI KOREA LIMITED	KRW 200 million	100.0%	Sales support of abrasive and polishing compounds
FUJIMI SHENZHEN TECHNOLOGY CO., LTD.	CNY 3 million	100.0%	Sales support of abrasive and polishing compounds

#### (6) Issues to be Addressed

The semiconductor market, in which the Company mainly develop its business, has an industrial structure with a cyclical nature, and the Company has endeavored to expand the business domain aiming to mitigate the cyclical nature, stabilize and further expand its sales.

However, the Company's sales have been becoming more dependent on the semiconductor market due to a significant sales increase for the semiconductor application.

The backgrounds of increase are as follows;

- (i) In recent years, the sales increased significantly in the silicon business and CMP business supported by firm demand for the semiconductors.
- (ii) In the current business year, because of "Stay Home" to prevent the spread of novel coronavirus (COVID-19), the global semiconductor market showed firm demand for the both logic and memory devices used for data centers and PCs. Additionally, the inventory levels have increased due to concerns over the spread of the novel coronavirus (COVID-19) and the intensified US-China trade friction.

In the medium to long term, the Company believes that it is difficult to expect the semiconductor market to continue double-digit year-on-year growth as before.

Under these circumstances, the Company recognizes that activities (i) and (ii) below are the essentials to improve the Company's corporate value.

(i) The New Business Division and the Advanced Technology Research Center strive to expand the business domain by conducting research and development from a short term and medium to long term perspective and exploring and incubating new businesses.

(ii) Specialty Materials Division expands applications in non-semiconductor and non-polishing fields.

The details are described in "7. Basic Policy Regarding the Control of the Company, (2) The Measures to Realize the Basic Policy, 2) Measures to Enhance Corporate Value (Medium & Long Term Business Plan)".

- Litigation expenses and compensation for damage borne by the insured due to company litigation, third-party litigation and shareholder derivative suits are covered.
- As a measure to prevent impairment of the appropriateness of the execution of duties by the insured, losses caused by the insured through illegal acts, etc. are not covered.

(3) Remuneration to the Directors and the Corporate Auditors

1) Policy regarding the Determination of Remuneration for the Directors

The Board of Directors has resolved the policy regarding the determination of remuneration for each of the Directors. The Board of Directors considers that the method of determining remuneration and the determined remuneration for each of the Directors for the

current business year are in accordance with the policy regarding the determination of remuneration by confirming a report of the Advisory Board and that the method of determining remuneration and the determined remuneration are consistent with the policy.

The policy regarding the determination of remuneration for the Directors is as follows;

i) Basic Policy

The system of remuneration for the Directors is linked to shareholders' profits and business performance so as to function as an incentive to continuously improve the corporate value. The remuneration for each the Directors is determined at an appropriate level based on the individual responsibilities.

ii) Types and Composition of Remuneration for the Directors

The remuneration for the Directors consists of the followings.

- Monthly remuneration
- Business performance-based remuneration including the executive bonuses as a short-term business performance-based remuneration and the Board Benefit Trust (BBT) as a long-term business performance-based remuneration

iii) Policy regarding the Determination of the Amount of the Monthly Remuneration

The monthly remuneration for the Directors is determined through the deliberation at the Board of Directors meeting after the Annual General Shareholders' Meeting based on the individual positions and responsibilities. The proposal of monthly remuneration for the President, the Directors and the Outside Directors is submitted to the above-mentioned Board of Directors after being deliberated by the Advisory Board, which is chaired by the President and consists of the Senior Directors and the Outside Directors.

iv) Policy regarding the Determination of the Calculation Method of the Business Performance-based Remuneration (Executive Bonuses and Share Compensation)

The business performance-based remuneration for the Directors consists of executive bonuses and share compensation.

The executive bonuses for the Directors is determined after the deliberation by the Board of Directors in consideration of the individual positions and responsibilities with the following calculation method, and is paid annually after the Annual General Shareholders' Meeting.

The calculation method of the executive bonuses is as follows;

- The total payment amount is calculated by multiplying the estimated profit attributable to owners of the parent company by a certain coefficient.
- The upper limit of the individual Directors' bonuses is set according to the position.

The upper limit of the total remuneration for the monthly remuneration and the executive bonuses is JPY

480 million per annum (excluding salaries as employees) pursuant to the resolution at the 54th Annual General Shareholders' Meeting held on June 23, 2006

The share compensation is granted in accordance with the regulations on share compensation as follows;

- The points are granted to each the Directors in consideration of the individual positions and the achievement levels for business performance.
- The retired Directors who have the beneficiary rights are granted the Company's shares equivalent to their accumulated points granted by the time of retirement.

The number of points to be granted for the share compensation is separated from the upper limit of the total amount of remuneration for the monthly remuneration and the executive bonuses, is less than or equal to the upper limit of the number of the shares pursuant to the resolution at the 65th Annual General Shareholders' Meeting held on June 23, 2017, and is calculated based on the position points and the achievement rate of performance indicators selected in advance from the targets set in the Medium & Long-Term Business Plan.

v) Policy regarding the Determination of the Amount and the Proportion of the Monthly Remuneration and the Business Performance-based Remuneration

The monthly remuneration and the executive bonuses for the Directors are structured so that the proportion of business performance-based remuneration increases for the higher-ranking Directors, benchmarking the remuneration levels of the corporations being the same business scale and belonging to the related-industry as the Company.

2) Total Amount of Remuneration in the Current Business Year

Category	Total Amount of Remuneration (Millions of JPY)	Amount of Remuneration by Type (Millions of JPY)					Number of Recipients
		Monthly Remuneration	Share Options	Executive Bonuses	Retirement Benefits	Share Compensation <sup>iii)</sup>

- (ii) Cooperation with outside professional organizations
- (iii) Ban on any relations, including transactions
- (iv) Legal responses, both civil and criminal, in the event of an emergency
- (v) Prohibition of engagement in secret transactions and provision of funds

7. Basic Policy regarding the Control of the Company

Basic Policy regarding the control of the Company is described as follows;

(1) Contents of Basic Policy

The Company believes that the persons who control decisions on the Company's financial and business policies need to be the ones who fully understand the specifics of the Company's financial and business affairs and the source of the corporate value of the Company and will make it possible to continually and persistently ensure and enhance the corporate value of the Company and, in turn, the common interests of

its shareholders.

The Company believes that because shares in the Company are listed on a stock exchange, they should be freely traded in capital markets. The Company therefore does not adopt a general rule of rejecting any acts of large-scale acquisition of the share certificates, etc. of the Company (It is defined in 3.2) below. The same shall apply hereinafter.) and it believes that a decision on which persons should control the Company's financial and business policies should ultimately be made based on the discretion of its shareholders. In addition, when an act of large-scale acquisition of the share certificates, etc. of the Company is proposed, the Company will not reject that proposal if it will contribute to the corporate value of the Company and, in turn, the common interests of its shareholders.

However, there are some acts of large-scale acquisition of share certificates, etc. that benefit neither the corporate value of the target company or, in turn, the common interests of its shareholders including (i) those with a purpose that would obviously harm the corporate value of the target company and, in turn, the common interests of its shareholders, (ii) those with the potential to substantially coerce shareholders into selling their shares without providing sufficient time or information, and (iii) those that do not provide sufficient time or information for the target company's board of directors and shareholders to consider the details of the act of large-scale acquisition or for the target company's board of directors to make an alternative proposal or take other actions.

Also, the status of the major shareholders of the Company as of March 31, 2021 is described in 2. Status of the Company's Shares and certain officers of the Company and their relatives and related parties (the "Company's Officers, Etc.") hold some of the issued shares in the Company. The Company is a listed company, so we cannot deny the possibility that the shareholding ratios of the Company's Officers, Etc. may decrease due to a transfer or other disposition of the shares by the Company's Officers, Etc. for their own reasons or personnel relocation or other changes in the status of officers. In addition, it is considered an option for the Company to procure, in capital markets, funds necessary for the education of personnel and investment to facilities which constitute the bases of the Company's business, that have been the focus of the Company's measures, as well as investment, etc. in new and growing businesses that lead to the expansion of business over the medium to long term, increase internal capital adequacy, and business and capital alliances and other relationships with other companies, and, if the Company procures funds in such way, it is possible that the current shareholding ratios of the Company's Officers, Etc. may decrease.

The Company believes that, if it is not possible to manage the Company based on a full understanding of the source of the Company's corporate value and with a view to securing such source over the medium to long term and organically combining the Company's intangible managerial resources, such as technologies and expertise that have been cultivated through its long history, with markets, and thereby increasing the corporate value, it is not possible to gain trust from stakeholders, and, accordingly, such management would be contrary to the corporate value of the Company and, in turn, the common interests of its shareholders.

The Company therefore believes that a person who conducts an act of large-scale acquisition that is likely to be contrary to the corporate value of the Company and, in turn, the common interests of its

shareholders, through an act of large-scale acquisition of, or a similar act in respect of, the shares certificates, etc. of the Company without understanding of the source of the corporate value of the Company as described above or in a way that does not intend to manage the Company with a view to securing the source over the medium to long term and increasing the corporate value of the Company, is inappropriate as a person who will control decisions on the Company's financial and business policies, and necessary and reasonable countermeasures must be taken against such act of large-scale acquisition by such person so that the corporate value of the Company and, in turn, the common interests of its shareholders are ensured.

## (2) The Measures to Realize the Basic Policy

### 1) The Source of the Company's Corporate Value

Drawing on the know-how and R&D capabilities the Company has accumulated since its founding, the Company has developed numerous products essential for leading-edge industries with high-precision polishing needs, including mirror polishing of semiconductor substrates like silicon wafers, CMP (chemical mechanical planarization) required for the multilayer wiring of semiconductor chips, and hard disk polishing. In particular, the Company holds the top global market share for high-precision abrasives for semiconductor substrates, a core business area, and the Company maintains its market superiority as the leading name in synthetic precision abrasives.

For many years, the Company has continued to meet the needs of its customers in the field of high-precision polishing and has endeavored to advance and build up its development and manufacturing technologies. In the course of doing so, the Company has developed relationships of trust with its customers and established three core technologies: filtration, classification, and refinement technologies, powder technologies, and chemical technologies. Filtration, classification, and refinement technologies are technologies for controlling the particle size distribution of abrasive grains and removing large particles and impurities that negatively affect the quality of the polished object; powder technologies are technologies for controlling the shape of particles and achieving granulation by equally mixing different particles; and chemical technologies are technologies for appropriately selecting additives that exhibit dispersion, dissolution, and surface protection effects that contribute to improving the function of the abrasive.

The Company's slogan, "Polishing our technologies and bringing people together," means contributing to better product manufacturing through cutting-edge technologies, connecting people, and providing people with a rich lifestyle; product manufacturing that respects people and considers the global environment is at the root of the Company's manufacturing approach. The Company has developed its competitiveness through this manufacturing approach and through its corporate culture wherein each employee boldly takes on the challenge of addressing new developments.

The Company believes that the source of its corporate value lies in these strong technological and development capabilities that are tied to manufacturing sites, in its relationships of trust with customers cultivated over many years, and in its corporate culture with healthy and close labor-management relations. To lead technological innovation and expand results moving forward, the Company believes it is important to further increase the level of trust with customers and increase employee morale, and the Company will

strive as a group to continue enhancing corporate value under these policies.

## 2) Measures to Enhance Corporate Value (Medium & Long Term Business Plan)

The Company has set its Medium & Long Term Corporate Vision as “We support your forward-looking ideas and challenges” under the current Medium & Long Term Business Plan formulated in November 2016. This comes with the intent of striving towards a company that is “Strong, Kind and Exciting,” as stated in our Corporate Cultural Vision, which is the ultimate goal that we aim to achieve. This is realized by adapting to the changing environment, which is made possible by cultivating the space for the growth of the self-driven ideas and challenges of each individual employee.

The business environment of the semiconductor market, which has been the main business area of the Company, is getting more severe, and this caused no small impact on the Company, nearly 80% of whose sales are in semiconductor related areas. Smartphones that held up the market, in place of personal computers that have long been the key player of the semiconductor market, have seen a large slowdown in growth. Currently there is increasing activity in industry such as AI, IoT, and autonomous driving as industries in the post-smart phone era. We believe a business structure that does not lean towards specific markets or needs is crucial in order to attain stable and continued growth in such a business environment, and have thus aimed to improve our sales distribution ratio of non-semiconductor related items. On the other hand, although we established our business domain as “powder and surface” in 2012, in actuality, most of our activity was centered around abrasives as seen previously.

Under the Medium & Long Term Business Plan, we reaffirm that “powder and surface” is the business domain that we target for future growth while also aiming to expand the business domain to “polishing solutions,” and we are striving to increase our sales distribution ratios for new businesses, non-semiconductors, and non-abrasive areas. In addition, we have also set the expansion of new applications and the fostering and acquisition of new businesses as one of the pillars under the Medium & Long Term Business Plan. Specifically, in the short term, we will expand existing business and develop new applications in peripheral areas, while in the mid-term, we will expand non-polishing applications and business with our goal of becoming a “powder and surface” company in mind. Furthermore, we have fostered new businesses and new technologies over the long term. We have begun working on long term activities by setting up the Advanced Technology Research Center in April 2015, which is engaged in strengthening the base of the existing business and research and development over the medium to long term, activities to seek and create new business opportunities, and the systematization, company-wide sharing, and propagation of the strengths of our technologies. As part of these measures, for the purpose of strengthening our business and accelerating the creation of new businesses, we established a corporate venture capital fund in November 2015 and invested in several venture companies that possess unique technologies.

We are striving for stable and continuous growth by periodically managing progress through setting goals for the sales distribution ratios for new businesses, non-semiconductors, and non-abrasive areas as indices for measuring the success of the above measures. In addition to our active investment in growing areas, we have raised our target consolidated dividend payout ratio to 50% or more in order to strengthen

returns to shareholders. For our CSR activities, we will strive to sustainably increase our corporate value by supplementing our existing activities with more effort into promoting female activity and work-parenting support.

In addition to our active investment in growing areas, we have raised our target consolidated dividend payout ratio to 50% or more in order to strengthen returns to shareholders. For our CSR activities, we will strive to sustainably increase our corporate value by supplementing our existing activities with more effort into promoting female activity and work-parenting support.

Specific measures for each business are as follows.

#### Silicon Business

In this business, we research, develop, manufacture and sell abrasives that are used in the high-precision polishing process in which silicon wafers, which become semiconductor substrates, are flattened and mirror polished. We offer high-quality products and services by which a total solution for every step of the process from cutting to polish finishing can be achieved. We aim to become our customers' "most trusted partner" by continuing to provide highly distinctive new products supported by new technologies so that we can satisfy the increasingly sophisticated requirements of our customers. In addition, we are focusing on the development of products for power device substrates, which have received increasing attention in recent years with the spread of electric vehicles and hybrid vehicles, and have put some of these products on the market.

#### CMP (Chemical Mechanical Planarization) Business

In this business, we research, develop, manufacture and sell abrasives that are used in the manufacturing process of semiconductor devices. CMP is increasingly used in the manufacturing process of semiconductor devices as they have become more highly-functional and highly-integrated products with higher density. We have established manufacturing and development bases in Japan, the United States, and Taiwan, which are located near the manufacturing and development bases of our customers, thereby building closer relationships with customers and developing new products in accordance with customers' roadmaps.

#### Hard Disk Business

In this business, we manufacture and sell abrasives that are used in the manufacturing process of disk substrates for hard disk drives, which are storage media for digital data. We have a manufacturing base in Malaysia, in which our customers' production bases are concentrated, and we have built relationships of trust with our customers by allocating technical staff and providing technical support in the region. With increasing demand for hard disks for data centers due to anticipated increase in data capacity that is transmitted and received via cloud service or 5G, we endeavor to expand the areas of basic development in order to grasp customers' requirements for next-generation disk substrates at an early stage, thereby promptly providing new products that meet customers' requirements.

### Specialty Materials Business

In this business, we research, develop, manufacture and sell specialty materials used in the manufacturing process of products such as electronic parts, automobiles, and lenses as precision grindstones, lapping cloth and paper, and polishing agents, filling materials, or the like for lapping, polishing, and blasting. Utilizing technologies for controlling particle size distribution and particle shape and granulation technologies as well as other powder technologies, we even draw out potential customer needs by appropriately responding to customer requests, and this in turn improves customer trust. Further, we seek to discover new applications for power by reinforcing our technological capabilities.

### Thermal Spray Materials Business

In this business, we mainly research, develop, manufacture and sell thermal spray materials such as cermets and ceramics for thermal spray applications, which is environmental friendly surface processing, in order to meet the demand for longer product life and higher product functions of machinery and components in a variety of industries including semiconductors, aircraft, and iron and steel. We aim to increase sales by developing new markets through further reinforcing our unique powder granulation technologies, promptly offering solutions, and focusing on developing ultra-hard materials for 3D printers.

### New Business

In this business, we research, develop, manufacture and sell abrasives and other products for a wide variety of materials (such as metal, resin, ceramic, and composite materials) and shapes (two-dimensional and three-dimensional) for new applications other than those covered by existing business. We will continue to serve the new surfacing requests of customers from all walks of industry by providing not only abrasives but also total solutions, including everything from the recommendation of application-specific equipment and consumables, to the processing stage.

### (3) Measures to Prevent Decisions on the Company's Financial and Business Policies from being Controlled by Persons Deemed Inappropriate Under the Basic Policy

#### 1) Purpose of Measures against Large-Scale Acquisitions of Share Certificates, Etc. of the Company

"Based on the Basic Policy set out in I above, the Board of Directors believes that it is necessary to promptly and properly take measures that it considers to be most appropriate for ensuring the corporate value of the Company and, in turn, the common interests of its shareholders against persons who conduct an act of unilateral and large-scale acquisition or any similar act in a manner that would damage the corporate value of the Company and, in turn, the common interests of its shareholders. Based on this belief, the Board of Directors decided to renew the ""Policy for Measures against Large-Scale Acquisitions of Share Certificates, Etc. of the Company (Takeover Defense Measures)"" (Hereinafter referred as ""the Policy""") for purposes such as preventing decisions on the Company's financial and business policies from being controlled by persons deemed inappropriate and deterring acts of large-scale acquisition that are

detrimental to the corporate value of the Company and, in turn, the common interests of its shareholders, and, on the occasion that the Company receives a proposal for an act of large-scale acquisition, enabling the Board of Directors to present an alternative proposal to the shareholders or ensuring necessary time and information for the shareholders to decide whether or not to accept the large-scale acquisition proposal, and enabling the Company to negotiate for the common interests of the shareholders. The Policy was approved at the ordinary general shareholders' meeting held on June 24, 2020."

## 2) Details of Measures against Large-Scale Acquisitions of Share Certificates, Etc. of the Company

"The Policy applies to an act that falls under (i) or (ii) below or any similar act, or a proposal for such act.

(i) A purchase or other acquisition that would result in the holding ratio of share certificates, etc. of a holder totaling at least 20% of the share certificates, etc. issued by the Company; or

(ii) A tender offer that would result in the ownership ratio of share certificates, etc. of the party conducting the tender offer and the ownership ratio of share certificates, etc. of a specially related party totaling at least 20% of the share certificates, etc. issued by the Company.

(Hereinafter referred as an "Acquisition"; a party that conducts or makes a proposal for an acquisition, an "Acquirer".)"

The Policy defines procedures that the Company will request the Acquirer to provide the Board of Directors with information that is sufficient for the Company's shareholders to make decisions on the Acquisition and for the Board of Directors to evaluate, consider, or take other actions in relation to the Acquisition stipulated in the Policy. ("Large-Scale Acquisition Information")

"If an Acquirer or an Acquisition falls under (i) or (ii) below, the Board of Directors will consult with the Independent Committee regarding whether it is appropriate to trigger the countermeasures, and the Independent Committee will, based on the consultation and after obtaining advice from experts and other outside parties as necessary, make a recommendation, within the Board of Directors' Evaluation Period, regarding whether it is appropriate to trigger the countermeasures to the Board of Directors.

(i) An Acquirer conducts or intends to conduct an Acquisition not in compliance with the procedures stipulated in the Policy.

(ii) An Acquisition is determined to fall under any of the categories listed in the Policy or there are circumstances based on which the Acquisition is suspected of falling under any such categories from an objective and reasonable perspective, which is determined that the corporate value of the Company and, in turn, the common interests of its shareholders would be significantly harmed.

The Board of Directors shall respect the recommendation of the Independent Committee and make a decision on whether or not to trigger the countermeasures in the Policy. If the implement of the gratis allotment of Share Options with conditions for exercise and acquisition provisions, etc. (Hereinafter referred as "Share Options") as a countermeasure is determined in a resolution by the Board of Directors (Hereinafter referred as "Gratis Allotment Resolution"), the Company will allot Share Options for all shareholders determined by Gratis Allotment Resolution.

- (4) Reasons that the Above Measures are in Accordance with the Basic Policy and Do not Undermine the Common Interests of the Shareholders of the Company and are not Intended to Maintain the Position of Officers of the Company.

Measures described in above 2. are formulated as concrete measures to continuously and sustainably improve the corporate value of the Company and, in turn, the common interests of its shareholders, and are in accordance with the Basic Policy, which is determined that it does not undermine the common interests of its shareholders and is not intended to maintain the position of officers of the Company.

The Company believes that the Policy described in above 3. is a framework in accordance with the Basic Policy for ensuring and improving the corporate value of the Company and, in turn, the common interests of its shareholders by enabling the Board of Directors to present an alternative proposal to the shareholders, or ensuring necessary time and information for the shareholders to decide whether or not to accept the large-scale acquisition proposal, and enabling the Company to negotiate for the common interests of the shareholders on the occasion that the Company receives a proposal for an act of large-scale acquisition.

In addition, based on the reasons (i) to (vi) below, the Policy is determined that it does not undermine the common interests of its shareholders and is not intended to maintain the position of officers of the Company.

(i) The Policy places importance on shareholders' intent, such as being renewed with the approval of the general shareholders' meeting and, if necessary, going through a Meeting to confirm shareholders' intent.

(ii) The Policy fully satisfies the three principles set out in the Guidelines Regarding Takeover Defense for the Purposes of Protection and Enhancement of Corporate Value and Shareholders' Common Interests released by the Ministry of Economy, Trade and Industry and the Ministry of Justice on May 27, 2005. In addition, the Policy is based on arguments and other issues concerning the "Takeover Defense Measures in Light of Recent Environmental Changes" issued by the Corporate Value Study Group on June 30, 2008."

(iii) The Policy is based on establishment of reasonable and objective requirements for triggering countermeasures.

(iv) The Company shall decide to establish the Independent Committee as an organization independent from the Board of Directors and respect the recommendation of the Independent Committee and make a decision on whether or not to trigger the countermeasures in the Policy.

(v) The Policy may be abolished at any time by a meeting of the Board of Directors composed of Directors who are elected by the Company's general shareholders' meeting even before the expiration of the effective period of the Policy.

(vi) The term of office of the Company's Director is until the conclusion of the ordinary general shareholders' meeting relating to the last business year ending within one year after the election.

Concerning details of the Policy, please refer to the news release "Renewal of Policy for Measures

against Large-Scale Acquisitions of Share Certificates, Etc. of the Company (Takeover Defense Measures)" dated May 13, 2020 on the Company's website (<https://www.fujimiinc.co.jp>).
